Sup't, Mint of the United States,

Philadelphia, Penna.

Dear Sir:-

Referring to our letter of October 19th, we would advise you that the strike in the Lehigh region still continues, and no Highland coal has been mined since the 10th of last September. The stock of this coal which we had on hand, and which we promised in our letter to deliver to you as long as it should last, has been exhausted. We can furnish you with the best Broken coal that can be obtained, but with this continued strike and the consequent scarcity of coal prices have very much advanced, and \$6.50, per ton is the best we can do, commencing on the 9th instant.

Please advise us if you desire us to continue deliveries.

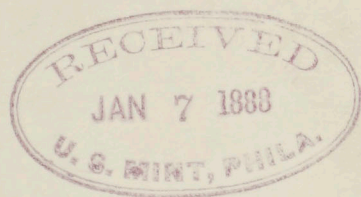

Yours truly,

Geo. B. Newton & Co.

Phila. Pa.
